

Name of Grant: DVD Recorder/VCR Combo Date: 10-27-06

Newcastle Education Foundation Grant Recipient Progress Report

- Recipient(s) Name: Jan Hale
 High School Middle School Elementary School Other
- Funds allocation to date (beginning balance – money spent): \$300.00

• Products/Services received to date: DVD Recorder/VCR Combo

• Project Implementation/Success to date: I use DVDs/Videos strictly as additional audio-visual chapter/subject reinforcement &/or for ^{educational} information. My previous equipment had only VHS capabilities; - this new equipment, of course, allows for both, - as well as conversions... I use it in both Art & Psychology, but have many chapter-related videos for my Psychology class, so it has been particularly used in that class.
• Feedback from Students/Parents: I am planning to convert some VHS tapes * (& teacher) this summer.

* Students may not have been aware of the time & problems encountered with my previous equipment - because it (1) Only ran VHS tapes (2) Did not have a counter - so I had to manually locate "scenes" class-to-class. It has made a world of difference in ease & efficiency!
